Claims should be made promptly in writing on receipt of stock. Plants become your property upon delivery to transportation company and we cannot be responsible for loss, damage, or delay in transit. All orders booked are based on the distinct understanding that the purchaser agrees to the condition of sales as stated above.

GUARANTEE OF GENUINENESS: We will send out healthy, thrifty stock, true to name. If any nursery stock proves untrue to description or variety name under which it is sold, we hold ourselves in readiness on proper proof, to replace free of charge such stock that may prove untrue to description or name, or refund the original amount paid. We shall in no case be liable for any sum greater than the amount originally received for said stock.

Orders are always individually filled with fresh dug stock. Our customers appreciate the fact that we do not ship them stock that has dried out in the storage house.

Essential Facts about SUWANNEE RIVER LIGUSTRUM

- A hybrid, the parents being Ligustrum Coriaceum and Wax Ligustrum.
- Foliage a deep lustrous green, smaller than Wax, and slightly twisted. Internodes short. Leaves opposite, with each set of leaves coming out at a 90-degree angle from those immediately above and below it. Very compact.
- An easy plant to grow. Not fussy as to soil requirements. Has not been attacked by white fly and appears highly resistant to nematode.
- Hardy wherever Wax Ligustrum is hardy.
- Slow enough to use around the foundation of the modern house, yet fast enough to make you some money. Excellent for low hedges.
- Plant Patent No. 1402. Minimum prices have been established at the wholesale, levels to protect you from cut-throat competition.
- A good margin of profit for dealers. Be the first to offer Suwannee River Ligustrum in your community.

To protect you and your customers, each Suwannee River Ligustrum plant will carry this tag!
